

# Gauri Gadadhe

Final Year B.Tech IT Student

gaurigadadhe04@gmail.com • Phone • 9969898661 • linkedin.com/in/Gauri-Gadadhe • github.com/gauricodes27

## EDUCATION

---

- **Usha Mittal Institute Of Technology** — Mumbai, India  
*B.Tech in Information Technology* — Oct 2022 – Jul 2026 — GPA: 6.73  
HSC - Patkar Varde College,Mumbai 2021 — 80.67  
SSC - St.Xavier's High School,Mumbai 2019 — 75.00

## TECHNICAL SKILLS

---

- **Programming:** Python, SQL, C, C++
- **Web Technologies:** HTML, CSS
- **Libraries and Tools:** GitHub, Opigno, Jupyter Notebook, Power BI, Google Colab, Canva
- **Soft Skills:** Communication, Teamwork, Public Speaking, Analytical Skills

## EXPERIENCE

---

**Data Analyst Intern (One-Month Internship)** — Imarticus Learning Pvt. Ltd., Onsite  
*April 2025* —

- Analyzed structured datasets using **SQL and Python** to extract actionable insights
- Developed a **Hospital Management System database** for patient, staff, and billing records
- Performed **data cleaning, EDA, and visualization** for alcohol consumption analysis using Pandas and Matplotlib
- Built interactive **Power BI dashboards** for Mental Health Survey analytics
- Completed 3 real-world projects applying **Data Science, analytics, and reporting techniques**

## PROJECTS

---

- **Cyber Threat Intelligence Aggregator (Ongoing Major Project)** —  
Developing a production-oriented web application using Python, Flask, and MongoDB to aggregate open-source threat intelligence, perform NLP-based IOC extraction, and visualize threat trends through interactive dashboards, with a focus on real-time analysis, scalability, and SOC-aligned security workflows.
- **Alcohol data consumption Analysis** —  
Analyzed teen alcohol consumption patterns using Excel datasets, used Pandas for data manipulation and visualized key trends and correlations with Seaborn and Matplotlib  
**Alcohol Consumption Data Analysis** — GitHub
- **Hospital Management System** —  
to automate operations like patient registration, appointments, staff management, and billing. Used SQL for secure data handling, improving hospital efficiency and patient experience.  
**Hospital Management System** — GitHub
- **Mental Health Survey Analysis** —  
Designed an interactive Power BI dashboard to evaluate how academic workload, financial stress, and social factors affect students' mental health and academic outcomes. Transformed raw survey data into clear, data driven insights using data modeling, DAX measures, and visual storytelling.  
**Mental Health Survey Dashboard (Power BI)** — GitHub

## CERTIFICATIONS

---

- SQL and Relational Databases 101 Certified by IBM Skillsbuild.
- Microsoft Certified - Microsoft Azure AI Fundamentals: AI overview.
- Deloitte Australia - Data Analytics Job Stimulation By Forage
- IBM SkillsBuild Project-Based Learning – Agentic AI Program: AI Agent Architecture, Generative AI, Autonomous Systems, Real-world AI Solution Development — IBM × CSRBOX

## ADDITIONAL INFORMATION

---

- Student Representative in Women's In Engineering Council Of First Year
- Was An Marketing Executive Member Of SNDT ACM- W Student Chapter For year 2023-24
